Summary

With 4 years of experience as a lecturer and 7 years in education, I translate theory into practice through field trips, workshops, and expert-led sessions. As a Program Director, I oversee program quality by embedding industry engagement through two structured internships and student competitions. My research focuses on the intersection of artificial intelligence and psychographics across influencer marketing, organizational behavior, tourism, and sustainability. I hold a PhD in Management (Marketing) from the University of Southern Queensland, Australia, and will soon hold a second PhD in Management from Ho Chi Minh City Open University, Vietnam.

Education

PhD	University of Southern Queensland, Australia , Management (Marketing)	April 2026
	- The thesis examines how consumer well-being is shaped by unfulfilled aspirations and obligations, and how consumers use compensatory consumption to cope with these tensions. - Integrating a systematic review, experimental studies, and conceptual modeling, the thesis shows that compensatory consumption is a context dependent coping mechanism that varies across financial strain, religious conflict, and gambling behavior. - The thesis aims to identify how consumers may be better protected from manipulative marketing practices.	
PhD	Open University, Vietnam , Management (Marketing)	Expected completion in July 2026
	- The thesis examines how Artificial Intelligence can be evaluated more fairly as a human-like social actor. - Integrating PLS-SEM, machine-learning analyses, and in-depth interviews, the thesis shows that AI agents can serve as effective counsellors and endorsers to support well-being, engagement, and decision-making in organizational and tourism contexts. - The thesis focuses on how ethical perception, trust, and sustainability shape human responses to AI in emerging service interactions.	
Master	Open University, Vietnam , MBA	2017 - 2019
	- The thesis examines how athletic endorsers influence consumer responses to non-sport product endorsements. - I graduated as Valedictorian, ranking first in both the entrance examination and final graduation cohort (Entrance Exam: 9.44 GPA: 8.44 Thesis Defense: 9.8).
